Stall Design Guidelines

Please refer to the Exhibitor Manual for exhaustive guidelines (much of the instructions listed for convenience under the heading of Bare Space Scheme exhibitors are also applicable in the sense they are intended to the Shell Scheme exhibitors)

- All stalls under Shell Scheme will be pre-built by the empaneled contractor. These stands will be of standard octonorm system with each white laminated panel of 2.5 m. height and 1 m. width. **The size of the banners/posters on the wall** may account for the width of the connecting rods between the panels e.g. the poster for a panel of 1 m. width may be about 2 inches shorter than 1 m. (one inch on either end of the panel).
- No structure should exceed 8.125 ft. in height. Special permission from Organizer is required for higher structure.
- No part of the exhibit should project out of the stand area and nothing should be placed outside the stand. Digging in the floor/ground is strictly prohibited.
- Excess material remaining after completion of stand design will be allowed to be carried out of venue only with a Self-declaration on company's letterhead along with duly filled Exit form.
- Stall set up as well as its dismantling must be completed before their respective deadlines.

Caution

- All items supplied under Shell Scheme package and additional items supplied by our official contractors are only on hire basis and the Exhibitors are required to return them to the contractors at the end of Exhibition in good order and condition. Any damage or loss of these items will have to be compensated for by the Exhibitor to the contractors.
- Painting, wall-papering, nailing/ drilling on wall panels supplied under the Shell Scheme is strictly prohibited. A penalty of Rs. 5000/- will be levied per panel for violation of this rule.
- Drilling, grouting on the floor, welding or any support of the semi constructed structure is strictly prohibited. Anyone found guilty will be charged a penalty of Rs. 50,000/-.
